DETAILED ACTION

Response to Amendment

1. Receipt is acknowledged of the Amendment filed February 3, 2004. The Applicant cancelled previously rejected claims 139-276, amended claims 125, 278, 308, 323 and 324 to correct errors based on antecedence.

Allowable Subject Matter

2. Claims 124-138, 277-291, and 307-336 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited prior arts discloses, teaches, or fairly suggests the claimed method and system of acquiring coded information by a portable reading device. The acquired information further comprises an upcoming schedule of use of an equipment or facility associated with the code and scheduling the use of the equipment or facility. Previously cited references (Ueda et al. (US 4,866,258), Knowles (US 6,321,991)) disclose a step of reading a barcode and programming a recording process of TV program. However, the cited references do not teach or disclose the claimed step of acquired information comprising an upcoming schedule of use of an equipment or facility and scheduling the said equipment or facility. Accordingly, one of ordinary skill in the art would not have been motivated to modify teachings of prior art to meet the claimed limitations as set forth in the present claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
